Dear Dr. Paranjape,

It was a breath of fresh air listening to you the other day. It was like magic being performed.

I am very pleasantly surprised to see how much one can do with Microsoft office. It opens up a whole new arena of opportunities. However, when I tried doing things myself, I am unable to do so since I think there was a lot that was covered in a matter of a short time. I believe Mr. Rajan Erande is going to organize a few smaller critical groups so that we can apply what we have learnt.

Thank you very much for a most impressive programme.

Thanking you,

Yours sincerely,

Meher Pudumjee
